TITLE	Analysis of Transfer Data of Former Harper Students at Senior Institutions. Volume IX, No. 18.
INSTITUTION	William Rainey Harper Coll., Palatine, Ill.
PUB DATE	21 May 78
NOTE	21p.
EDRS PRICE	MF01/PC01 Plus Postage.
DESCRIPTORS	Females; *Followup Studies; *Grade Point Average; Institutional Research; Intellectual Disciplines; Junior Colleges; *Junior College Students; Males; *Persistence; *Postsecondary Education; Transfer Policy; *Transfer Students; Universities

ABSTRACT

Data supplied by four-year Illinois colleges to which Harper College students transferred were used to evaluate the progress of Harper students and compare their progress with that of transfer students from other colleges and of native students. In a 1973 study of transfer students, Harper transfers accumulated a 2.86 grade point average (GPA) compared to a 2.80 average for all community college transfers, thus, ranking 17th among the 38 community college districts. More recent data showed that Harper transfers performed better than all other transfers at two colleges and about the same at four institutions. In addition, Harper transfers performed better than native students at two colleges, though in all other cases transfers had a lower GPA than four-year college transfers and native students. In terms of persistence, Harper transfer students lasted much longer than their peers from other community colleges--after three years, 50% of the students transferring from Harper in 1973 graduated. There was considerable variation in how Harper students performed in various disciplines. In comparison to other community college transfers, they seemed to perform best in Business Administration and Social Sciences. Though the majority of Harper students were female, the majority of transfer students were male. Whether Harper students entered the senior institution as freshmen, sophomores, or juniors varied widely by institution. Data tables are included. (Author/MB)

WILLIAM RAINEY HARPER COLLEGE
Volume IX, No. 18
May 21, 1978

ABSTRACT

THE PURPOSE OF THIS STUDY WAS TO EVALUATE HARPER COLLEGE'S TRANSFER STUDENTS' PROGRESS BY ANALYZING DATA ACCUMULATED FROM THESE FOUR YEAR COLLEGES SINCE 1974. THE STUDY GIVES A TOTAL INSTITUTIONAL PERSPECTIVE ON HOW HARPER TRANSFER STUDENTS COMPARE TO OTHER TRANSFER STUDENTS ATTENDING ILLINOIS FOUR YEAR COLLEGES AND UNIVERSITIES.

RESULTS OF THE STUDY SHOW THAT HARPER TRANSFER STUDENTS ONLY ACHIEVE SLIGHTLY BETTER GRADE POINT WISE THAN THEIR COUNTERPARTS AT OTHER COMMUNITY COLLEGES. HOWEVER, IN TERMS OF PERSISTENCE, HARPER TRANSFER STUDENTS LAST MUCH LONGER THAN THEIR PEERS FROM OTHER COMMUNITY COLLEGES. AFTER THREE YEARS, 50 PERCENT OF THE STUDENTS TRANSFERRING FROM HARPER GRADUATE. THIS FIGURE APPEARS TO CLIMB WITH ADDITIONAL YEARS.

EVEN THOUGH FEMALES MAKE UP THE MAJORITY OF THE STUDENT BODY AT HARPER COLLEGE, MALES COMPRISE A LARGE MAJORITY OF STUDENTS TRANSFERRING TO FOUR YEAR INSTITUTIONS. HARPER TRANSFER STUDENTS APPEAR TO PERFORM BEST (IN A RELATIVE SENSE) IN SOCIAL SCIENCE AND BUSINESS ADMINISTRATION. WHETHER HARPER TRANSFER STUDENTS ENTER AS FRESHMEN, SOPHOMORE, JUNIORS OR SENIORS VARIES WIDELY BY INSTITUTION.

L. State Wide Comparisons of Community College Transfer Students Who First Enrolled at Illinois Four Year Institutions in the Fall of 1973 14

Purpose

The purpose of this study was to evaluate Harper College's transfer students progress by analyzing data accumulated from these four year colleges since 1974. The study gives a total institutional perspective on how Harper transfer students compare to other transfer students around the State.

Population Surveyed and Methodology

The study drew upon data supplied by four year Illinois colleges to which Harper students transferred. The bulk of the data was received from the University of Illinois-Champaign, University of Illinois-Circle, Northern Illinois, Eastern Illinois, Southern Illinois, Illinois State and Northwestern University. A substantial portion of this data involved a state wide study of the class who transfered in the fall of 1973.

Comparisons were provided by many of these four year institutions for Harper College versus all community college transfers, versus four year college transfers, versus native students.

Because each four year institution provides a different format for transfer data, considerable time must be spent in analysis reducing the data to some sort of common format so that some overall generalizations can be made about Harper transfer students.

Discussion of Results

Students who tranfer from Harper College to four year institutions perform slightly better grade point wise than transfer students from other community colleges. In the state wide study of students who transferred in the fall of 1973, Harper transfers accumulated a 2.86 average compared to 2.80 average for all community college transfers. Considering the 38 community college districts in the State who participated in the study, Harper College ranks 17th with regard to this cumulative GPA. Using data of students transferring more recently, we find Harper performs better than all community college transfers at U.I. Circle campus and at Eastern Illinois while Harper transfers performed about the same as other community college transfers at Southern Illinois, U.I.-Champaign, Illinois State, and Northern Illinois. In addition, Harper transfers perform better than native students at Southern Illinois and Northern Illinois. In all other cases, Harper

transfers have a lower GPA than four year college transfers and native students. At Northwestern there is no comparison data provided but Harper transfers have accumulated a 2.64 average GPA there.

Harper college transfers students fare much better with measures of persistence. Examining the State wide study of students entering their transfer institutions for the first time in the fall of 1973, we find two years later 70 percent of Harpers' students have remained in good standing or have graduated. This compares to only 46 percent for all community college transfers. Moreover, in this measure of persistence, Harper ranks sixth in the state. Also after two years 23 percent of Harper's original fall 1973 transfer class had graduated but after three years 50 percent had graduated. More recent data received on this original fall 1973 class shows that, after four years, two-thirds of Harper transfers to Eastern Illinois have graduated and after 3½ years, 61 percent of Harper transfers to Northern Illinois have graduated. At the University of Illinois-Champaign, data is available on the persistence of more recent transfer classes. After two years, 48 percent of Harper transfers (starting fall 1974 and fall 1975) graduate while only 41 percent of all community college transfers and 35 percent of four year college transfers graduate.

Four of the senior institutions to which Harper students transfer, report grade point by discipline. There seems to be considerable variation in how Harper students perform in various disciplines at these four universities. For example, Harper students have always performed at a lower GPA in math at the University of Illinois-Champaign than other community college transfers. However, Harper students achieve a higher GPA in math at both University of Illinois-Circle and Illinois State. Harper transfers seem to perform best (compared to other community college transfers in Business Administrantion and Social Sciences. They also achieve well in Physical Sciences and English and Humanities, except for the University of Illinois-Champaign.)

Even though the majority of students at Harper now are female, the majority of Harper transfer students are male. This ranges from 53 percent male at Illinois State to 58 percent at Northern Illinois to 65 percent at the University of Illinois - Champaign to 71 percent at Southern Illinois and the University of Illinois-Circle. Thus, females are less likely to transfer from Harper than are males.

Harpers' students transfer with widely varying statuses at the various four year institutions. At Northwestern, 62 percent transfer in as sophomores or freshmen while at Circle campus they are evenly split between sophomores and juniors but at the University of Illinois-Champaign, 63 percent of Harpers' students transfer in as juniors. At Southern Illinois there is no exactly comparable data but it is known for a given year, 46 percent are new students, 34 percent are in their second year, 14 percent are in their third year while six percent came three or more years before.

Major Conclusions

Harper transfer students only achieve slightly better grade point wise than their counterparts at other community colleges. However, in terms of persistence, Harper transfer students last much longer than their peers from other community colleges. After three years, 50 percent of students transferring from Harper graduate. This figure appears to climb with additional years.

Even though females make up the majority of the student body at Harper College, males comprise a large majority of students transferring to four year institutions. Harper transfer students appear to perform best (in a relative sense) in Social Science and Business Administration. Whether Harper transfer students enter as freshmen, sophomores, juniors or seniors varies widely by institution.

DETAILED RESULTS

Northern Illinois
Progress of Transfer Students from Harper - Fall 1976 to Fall 1977

Progress Through Four Semesters	Harper College	All Community Colleges	Four Year Colleges	Native Students
Student enrollments	1,780	14,679	7,651	27,090
Cumulative GPA	2.73	2.73	3.81	3.69

Northwestern University
Progress of Transfer Students from Harper

	Applicants	
	Second Quarter 1976 to Second quarter 1977	
	Number	Percent
Accepted and enrolled	3	23
Accepted and then withdrew	1	8
Withdrew before decision	3	23
Denied admission	4	31
Decision pending	2	15
Total applicants	13	100

	Analysis of Those Enrolled	
Total enrolled	13	100
Transferred as:		
Freshmen	1	8
Sophomore	7	54
Junior	5	38
Senior	0	
Presently a:		
Junior	5	38
Senior	8	62
GPA during:		
Freshman year	2.00	
Sophomore year	2.90	
Junior year	2.55	
Senior year	2.54	
GPA currently:		
3.00 and above	5	38
2.00 - 2.99	7	54
Under 2.00	1	8
GPA average	2.64	

State Wide Comparisons of Community College Transfer Students
Who First Enrolled at Illinois Four Year Institutions in the Fall of 1973

Community College from which student transferred	Number of students enrolled Spring 1975	Mean cumulative GPA of those enrolled Spring 1975
1. Rock Valley	25	3.15
2. Rend Lake	88	3.14
